ARE YOU COVERED?

The COVID-19 disease has created havoc in the world in just a few months. Unfortunately, the effect on our fellow South Africans and Businesses have been severe not to mention the fear people are experiencing daily. Due to this fear of being exposed to germs and viruses, people have become very sceptical about the places they visit, resulting in a huge loss of income for businesses and practices.

What if there was a cost-effective, sustainable way for you to sanitize your store / office / business / practice that would give people peace of mind to visit your business?

Specifications regarding our UVGI Sanitation Lights:

VIRUS SAFE CERTIFIED

WE UNDERSTAND THE EFFECT OF COVID-19, SO HERE IS HOW WE CAN ADD VALUE TO YOUR BUSINESS.

When purchasing these Virus Safe products, we will issue your business, practice, school or University a Virus Safe Grading Certificate including a Virus Safe Awareness Pack at an additional R200 (excl.Vat) per month, allowing the public to know how many times a week your property is being disinfected and sanitized, thus giving people peace of mind to visit your property.

SANITIZE FROM 1 DAY PER WEEK TO 365 DAYS PER YEAR. YOUR CLIENTS WANT TO KNOW YOUR VIRUS SAFE STATUS.

YOUR VIRUS SAFE AWARENESS PACK INCLUDES THE FOLLOWING.

- 2 x ABS printed Virus Safe Certified wall plaques (290x290)
- 2 x vinyl window stickers (290x290)
- 10 x Certified office vinyl stickers
- 1 x Virus Safe WhatsApp advertising ad to send to your clients
- 1 x Virus Safe Facebook advertising ad to send to your Facebook clients
- 1 x Virus Safe Email advertising ad to send to your clients
- 1 x Virus Safe Certified logo to add to your email stationery
- 1 x Virus Safe Certified logo to add to your website

We advertise your Virus Safe Certified status on <https://virussafe.co.za/virus-safe-businesses/> and Google Earth with your address pin under your business classification

ABOUT VIRUS SAFE

VIRUS SAFE is constantly challenging the South African and Global market by providing new and better Ultraviolet Germicidal Irradiation (UVGI) Sanitizing products for the future, today. Since its establishment in early 2020, VIRUS SAFE has developed its product technology to include a wide variety of (UVGI) products used in many different markets. Here at VIRUS SAFE, our primary product focus is on Sustainable VIRUS SAFE Environments.

As a specialist in UVGI Sanitizing products, VIRUS SAFE works in partnership with many advanced companies to develop new and innovative products. Our goal at VIRUS SAFE is to meet the comprehensive needs of our customers through market-directed product engineering, manufacturing process control and breadth of product offering.

Company size and philosophy drive strategy. We are small enough to react to specific Original Equipment Manufacturer (OEM) requests while large enough to have the design and production system expertise essential to making sophisticated UVGI Sanitizing Products, coupled with a high degree of repeatability over large volumes.

Through listening and understanding our customer's needs, we have produced many specific tailor-made products and packages. We have also established an aftermarket program to service all our products with day-to-day consumables establishing an effective "one stop shopping solution" for all your virus protection and Covid-19 needs.

Designed to bring hospital- grade disinfection to everyday spaces, Virus Safe has cost-effective solutions to kill up to 99.9% of bacteria and viruses, including E. coli, Salmonella, MRSA, Norovirus, C. diff and COVID -19.
